Tony Perez
Pin Pals Junior Link

Dear Mr. Perez:

As principal of Chula Vista Middle School, I would like to thank you for your efforts in providing a group of our students with the opportunity to understand and learn the game of golf. The feedback that I have received from our participants has been overwhelmingly positive. As you know, our Before/After School Program under the direction of Sandra Bishop is always looking for opportunities that will motivate and engage students in positive, constructive activities. Your program is certainly one of those.

Students from the Chula Vista Middle community do not have many opportunities to venture out and explore activities that are more common to more affluent areas. By learning more about golf, the eyes of our students have been opened and they now have a better understanding of another healthy and constructive activity. Several have already indicated their intent to continue playing golf, including on the high school golf team after they leave us. I would recommend your program to other schools without hesitation.

Thanks for investing time and effort in Chula Vista Middle students!

Sincerely,

Doug Jenkins
Principal
